

CHM 2045 & L General Chemistry Fully Online Courses

Dr. Tito Sempertegui and Dr. Ozlem Yavuz-Petrowski of the FAU Department of Chemistry & Biochemistry, have completed the design process of their fully online General Chemistry course CHM2045&L aimed to support non-science majors. In a collaborative effort with the

FAU Center for Online and Continuing Education and the FAU Department of Chemistry & Biochemistry, this engaging quality course provides opportunities for online students to engage in purposeful group discussions, virtual labs, interactive media, and propose scholarly research.
