

Faculty stipends for online course updates

This semester the Center for eLearning (CeL) is rolling out a new service for online faculty. CeL is offering incentives for updating online courses that are 3+ years old. The CeL Course Design Update process follows nationally recognized [standards](#) for high quality in online course design and delivery.

A course design update includes:

- Recording new media
- Create/revise a new blueprint
- Re-align assessments
- Update to latest course template
- Update to accessible syllabus template
- Review for accessibility and copyright compliance

Stipends are available for eligible faculty. In many cases, CeL will also pay the submission fee for those who wish to seek [Quality Matters](#) certification following their Course Design Update. Please complete the form below if you are interested. For questions, email Dr. Julie Golden-Botti at iDesign@fau.edu
